Re: Irradiation

Thank you for your inquiry regarding irradiation of the products you purchase from Ardent Mills. Ardent Mills products are not irradiated.

Ardent Mills takes food safety and compliance with laws and regulations relating to food safety very seriously. The Food Safety Modernization Act requires processors/manufacturers of products to conduct hazard analysis and to identify hazards that can be found in the processing or manufacturing products and ingredients. Ardent Mills conducts this risk-based hazard assessment. This assessment reviews the hazard categories to include biological, chemical and physical hazards as expanded in the Preventive Controls for Human Food requirements.

Sincerely,
Ardent Mills Regulatory Team
